Re a go amogela mo Beyond Pink

Re a go amogela mo Beyond Pink, eBook e e rutang ka temogo ya kankere ya matswele le go lemogiwa go sa le gale.

Kankere ya matswele e ka ama banna le basadi (Miwaylife.co.za, 2020). Go ithuta ka kankere ya matswele, go lemoga matshwao a tlhagiso a a ka nnang teng, le go itse nako ya go batla thuso ya kalafi go ka thusa batho go dira ditshwetso tse di siameng ka boitekanelo jwa bone.

Buka eno e abelana tshedimosetso ka puo e e bonolo le e e tlhaloganyesegang motlhofo. E diretswe go dira gore tshedimosetso ya kankere ya matswele e fitlhelelwe thata, segolobogolo mo bathong ba ba nnang kwa metseselegaeng.

Maikaelelo a eBook eno ke afe?

Beyond Pink eBook e diretswe go naya tshedimosetso e e tlhamaletseng le e e ikanyegang ka kankere ya matswele.

E ikaeletse go thusa babadi go:

- Tlhaloganya kankere ya matswele.
- Lemoga matshwao a a ka nnang a tlhagisa kotsi.
- Ithuta ka go lemoga kankere ka bonako.
- Tlhaloganya ditumelo tse di tlwaelegileng tse di seng boammaaruri le dintlha tsa boammaaruri.
- Itse gore ba batle thuso ya kalafi leng.

eBook eno ke ya bomang?

Beyond Pink e diretswe segolobogolo basadi le banna ba ba nnang mo metsemagaeng.

E ka thusa gape:

- Malapa le batlhokomedi.

Salome Machochi

Sethu Lushaba

Muziwakhe Mavuso

Siyabonga Motaung

Neri Chawane

- Badiri ba botsogo ba setšhaba.
- Baithuti le barutabana.
- Mongwe le mongwe yo o kgatlhegelang go ithuta ka kankere ya matswele.

Tshedimosetso e kwadilwe ka puo e e bonolo gore go nne bonolo go e tlhaloganya.

Goreng kitso ka kankere ya matswele e le botlhokwa mo metsemagaeng?

Batho ba kwa magaeng ba ka lebana le dilo tse di jaaka go tsaya loeto lo loleele go bona tlhokomelo ya boitekanelo, go se nne le didiriswa tse di lekaneng, le go bona tshedimosetso e e sa siamang ya boitekanelo.

Kitso ka kankere ya matswele e ka thusa batho go:

- Lemoga diphetogo tse di sa tlwaelegang.
- Tlhaloganya botlhokwa jwa go tsaya kgato ka bonako.
- Tila ditumelo tse di ka nnang kotsi.
- Itse gore ba batle thuso ya baitseanape leng.

eBook eno e ka dira eng mme e ka se dire eng?

eBook eno E KA:

- Neela tshedimosetso ka kankere ya matswele.
- Tlhalosa matshwao, diponagalo le mabaka a kotsi.
- Abelana ka tshedimosetso ya go lemoga kankere ka bonako.
- Tlotla ka ditumelo tse di seng boammaaruri le dintlha tsa boammaaruri.
- Rotloetsa batho go batla thuso ya kalafi.

eBook eno E KA SE:

- E lemoge kankere ka tlhatlhobo.
- E emisetse ngaka kgotsa mooki.
- E emisetse diteko tsa kalafi kgotsa tlhatlhobo.
- E akantse ka kalafi ya motho ka nosi.

Fa o tshwenyegile ka botsogo jwa gago, ikgolaganye le ngaka ya botsogo ka bonako jo bo kgonegang.

Ke dirisa eBook eno jang?

eBook eno e diretswe go dirisiwa mo difounong, ditableteng le dikhomphiuthareng.

Salome Machochi

Sethu Lushaba

Muziwakhe Mavuso

Siyabonga Motaung

Neri Chawane

O ka:

1. Simolola ka matseno.
2. Ithuta ka kankere le kankere ya matswele.
3. Batlisisa ka matshwao, diponagalo le go lemoga kankere ka bonako.
4. Leba karolo ya Ditumelo tse di Seng Boammaaruri kgatlhanong le Boammaaruri.
5. Dirisa Thanodi ya Mafoko mo mafokong a o sa a itseng.
6. Tlhopha puo e o e ratang.
7. Dirisa dikarolo tsa phitlhelelo tse di jaaka modumo le thuso ya sebadi sa skrini.

Tlhaloso ya kankere

Kankere ke eng

Kankere e diragala fa disele dingwe tsa mmele di simolola go gola le go kgaogana ka tsela e e sa laolegeng. Gantsi disele di a gola, di kgaogana le go swa ka tsela e e rulagantsweng. Kankere e ka tlhagelela fa thulaganyo eno e sa tsamae sentle. Disele tseno tse di sa tlwaelegang di ka kopana go dira tlhagala e e bidiwang tlhagala. Disele dingwe ga di na kankere, mme tse di nang le kankere di ka anama mo ditokololong tse di gaufi le tsone mme tsa fetela kwa dikarolong tse dingwe tsa mmele.

Kankere e nna teng jang?

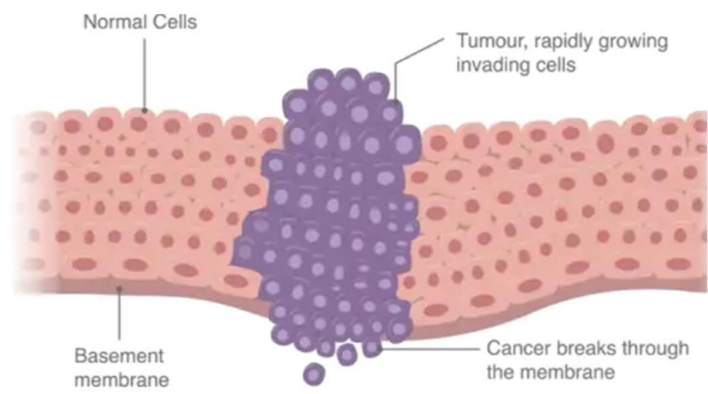

Kankere e ka simolola fa ditaelo tsa diseleng di sa tsamae sentle, jaaka fa DNA ya sele e fetoga kgotsa e senyegile, e dira gore di gole fa di sa tshwanela. Fa nako e ntse e ya, disele tseno tse di sa tlwaelegang di ka kopana go bopa tlhagala. Ditlhagala dingwe ga di kotsi, mme tse di nang le kankere di ka anama mo ditoleng tse di gaufi.

A kankere e ka anama?

Ee. Dikankere dingwe di ka anama go tswa kwa di simologileng teng go ya kwa dikarolong tse dingwe tsa mmele.

Tiragatso eno e bidiwa metastasis.

Metastatic Cancer

Fa kankere e anama, e ka ama dirwe tse dingwe mme ya dira gore kalafi e nne thata.

Ga se dikankere tsotlhe tse di anamang, segolobogolo fa di lemogwa le go alafiwa ka bonako.

Kankere ya matswele ke eng?

Kankere ya matswele ke mofuta wa kankere o o simololang mo diseleng tsa letsele.

E ka nna teng mo basading le mo banneng, le fa e tlwaelegile thata mo basading.

Kankere ya matswele e ka ama dikarolo tse di farologaneng tsa letsele mme e ka gola ka ditsela tse di

farologaneng.

Ke mefuta efe e e tlwaelegileng ya kankere ya matswele?

Go na le mefuta e e farologaneng ya kankere ya matswele. Tse dingwe tsa tsone tse di tlwaelegileng ke:

Invasive ductal carcinoma (IDC): Ke mofuta o o tlwaelegileng wa kankere ya matswele e e simololang mo ditseleng tsa mašwi mme e ka anama go ya kwa dithong tsa matswele tse di gaufi (Cancer.gov, 2025).

Salome Machocho

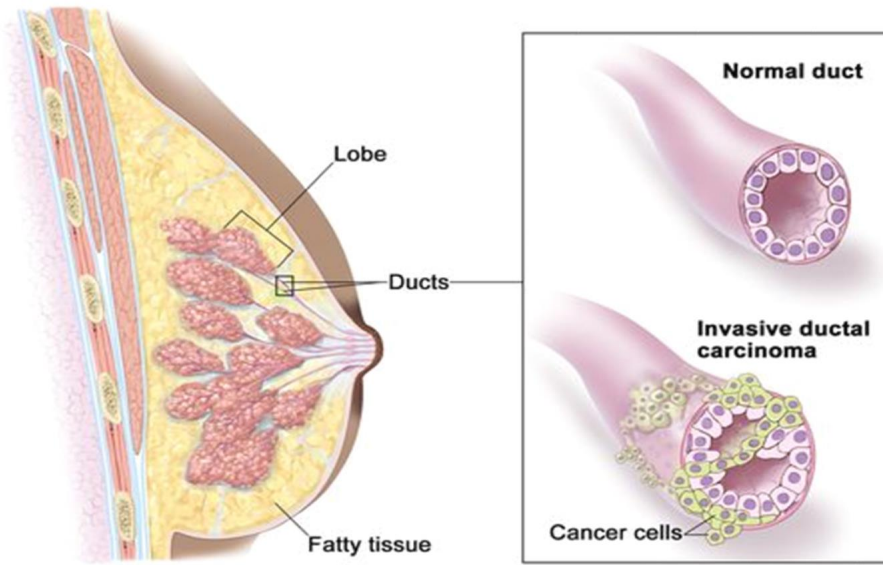

Sethu Lushaba

Muziwakhe Mavuso

Siyabonga Motaung

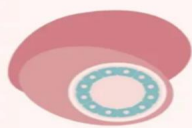

Neri Chawane

Invasive Ductal Carcinoma (IDC) of the Breast

Invasive lobular carcinoma (ILC) ke mofuta wa kankere ya matswele e e simololang mo dikgeles tse di tlhagisang mašwi (lobules) mme e ka anama kwa ditotong tse di gaufi (Cancer.gov, 2025).

Invasive Lobular Carcinoma

Normal lobule

Lobular carcinoma in situ (LCIS)

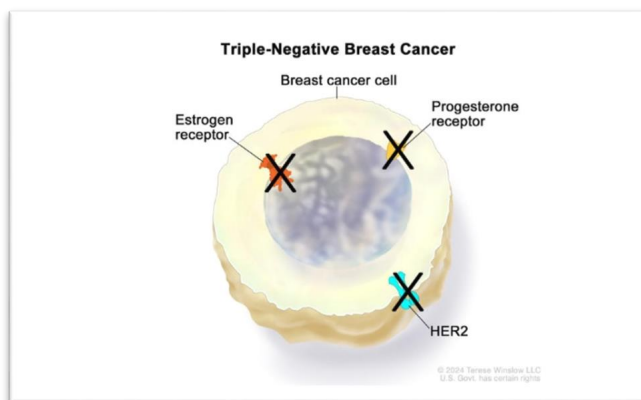

Invasive lobular carcinoma

healthline

Inflammatory breast cancer: Mofuta o o sa tlwaelegang le o o golang ka bonako wa kankere ya matswele o o ka dirang gore matswele a gago a lebege a le mahibidu, a ruruga e bile a ruruga (Cancer.gov, 2025).

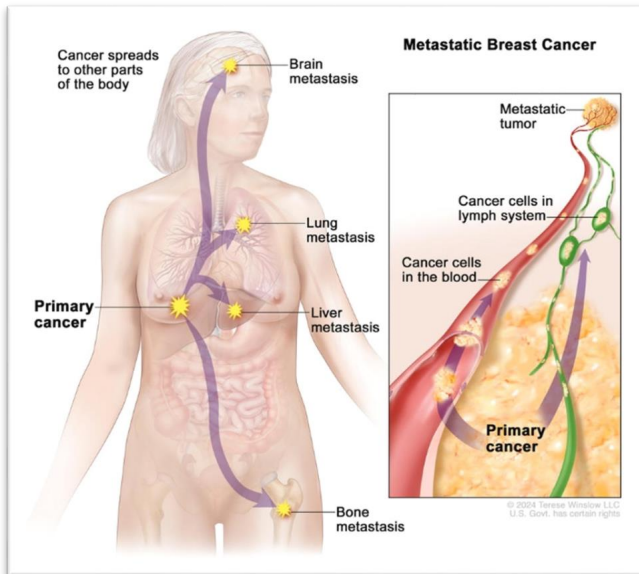

Triple-negative breast cancer: Mofuta wa kankere ya matswele o o senang di-receptor tse tharo tse di tlwaelegileng kgotsa diporoteine tse dingwe tsa kankere ya matswele di tlhokang go gola (Cancer.gov, 2025).

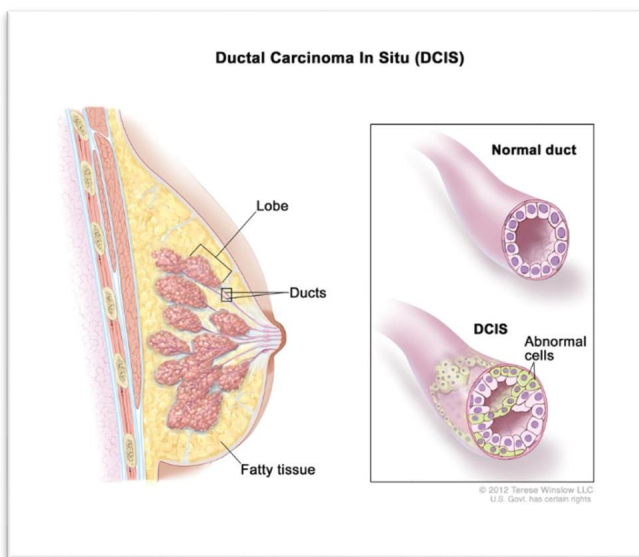

Metastatic breast cancer: Kankere ya matswele e e anameng go tswa mo matsweleng go ya kwa dikarolong tse dingwe tsa mmele, e gape e bidiwang Stage 4 breast cancer (Cancer.gov, 2025).

Salome Machochi
Sethu Lushaba
Muziwakhe Mavuso
Siyabonga Motaung
Neri Chawane

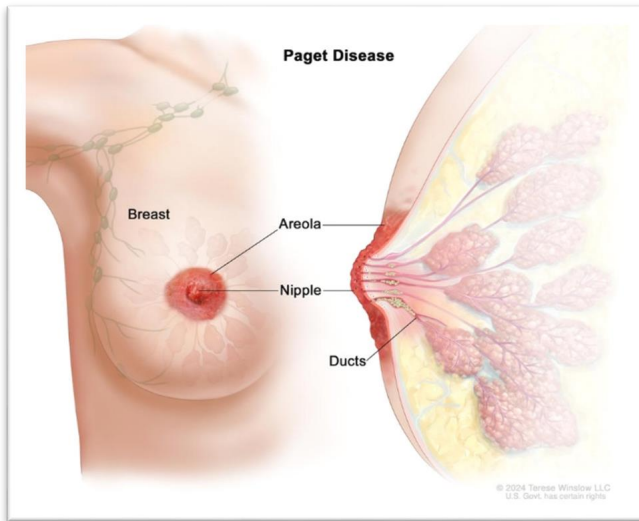

Ductal carcinoma in situ (DCIS): Mofuta wa kankere ya matswele o o simololang mo mašing mme ga o ise o aname mo dithong tsa matswele tse di gaufi (Cancer.gov, 2025).

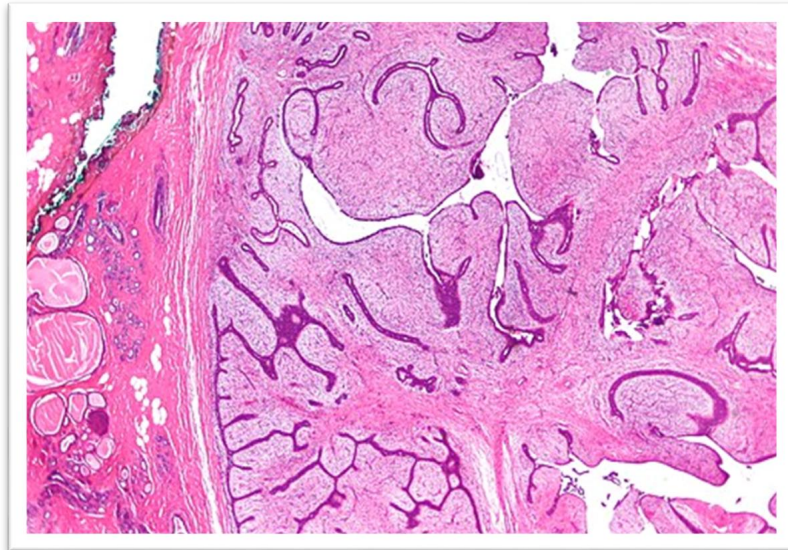

Paget disease of the breast: Ke mofuta o o sa tlwaelegang wa kankere ya matswele o o amang letlalo la nnyo le karolo e e fifetseng e e dikologileng (areola) (Cancer.gov, 2025).

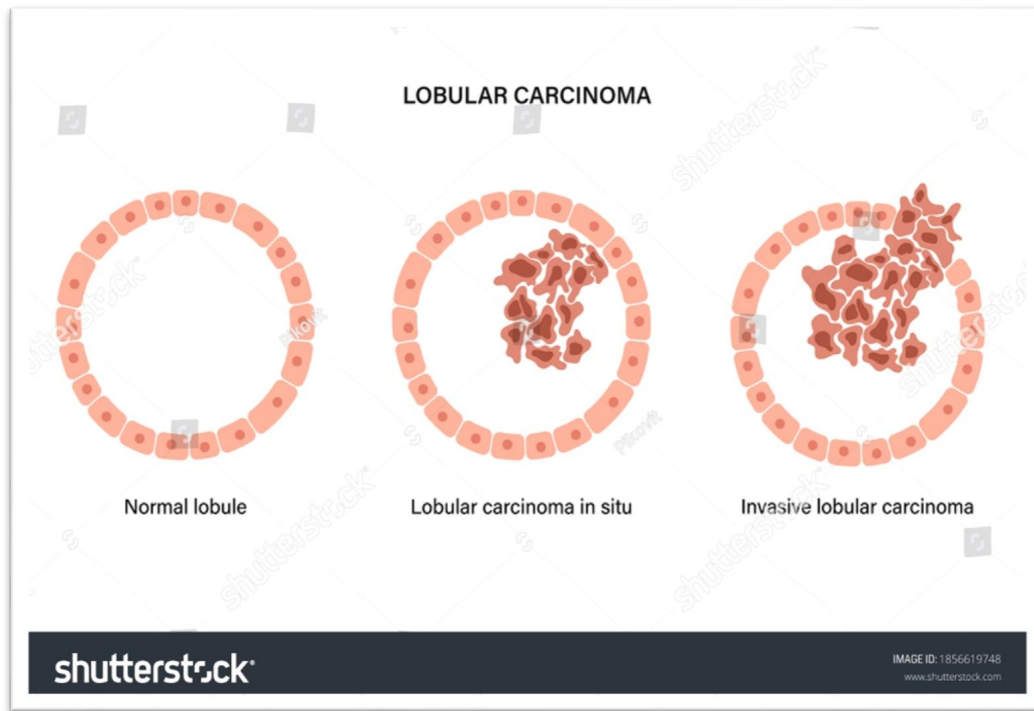

Salome Machocho
Sethu Lushaba
Muziwakhe Mavuso
Siyabonga Motaung
Neri Chawane

Phyllodes tumour: Tlhagala ya matswele e e sa tlwaelegang e e tlhagelelang mo ditoleng tse di golaganyang, mme bontsi jwa ditlhagala tsa phyllodes ga di na kankere (Cancer.gov, 2025).

Lobular carcinoma in situ (LCIS): Seemo se mo go sone disele tse di sa tlwaelegang di golang mo dikgeles tse di dirang mašwi mme di ka oketsa kgonagalo ya go tshwarwa ke kankere ya matswele moragonyana (Cancer.gov, 2025).

Ngaka ya bongaka e ka kgona go bona mofuta o o nepagetseng ka ditlathobho dingwe tsa kalafi.

A banna ba ka nna le kankere ya matswele?

Ee. Banna le bone ba ka tshwarwa ke kankere ya matswele. Le fa e sa tlwaelega thata mo banneng, ba sa ntse ba ka nna le yone ka gonne banna ba na le selekanyo se sennye sa matswele. Ka jalo, banna ga ba a tshwanela go ithokomolosa diphetogo tse di sa tlwaelegang mo sehubeng kgotsa mo karolong ya matswele.

Mabaka a magolo a kotsi ke afe?

Lebaka la kotsi ke sengwe se se ka oketsang sebaka sa gore motho a nne le bolwetse.

Mangwe a mabaka a kotsi a kankere ya matswele a akaretsa:

- Go gola ka dingwaga.
- Hisitori ya kankere ya matswele mo lelapeng.
- Diphetogo dingwe tsa dijini tse di ruetsweng.
- Mabaka mangwe a dihoromone.
- Mabaka mangwe a mokgwa wa botshelo le tikologo.

Go nna le lebaka la kotsi ga go reye gore motho o tla nna le kankere.

Goreng go lemoga kankere ka bonako go le botlhokwa?

Salome Machochi
Sethu Lushaba
Muziwakhe Mavuso
Siyabonga Motaung
Neri Chawane

Go tshwarwa ke kankere ya matswele go sa le gale go ka thusa motho go bona kalafi ka bonako.

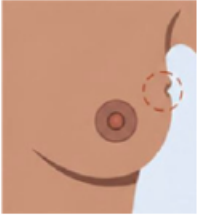

Ke ka moo go leng botlhokwa go:

- Itse se se tlwaelegileng mo mmeleng wa gago.
- Tlhokomela diphetogo tse di sa tlwaelegang.
- Latela kgakololo e e akantsweng ya tlhatlhobo.
- Batla thuso ya kalafi ya moitseanape fa o tshwenyegile.

Kitso ya bonako e ka dira gore go tsewe kgato ka bonako.

Matshwao a Kankere ya Matswele

Matshwao a Kankere ya Matswele mo Basading

 Diphetogo tsa bogolo jwa matswele Ka dinako tse dingwe, ka tshoganyetso fela, sebopego sa yone se ka fetoga ka bogolo kgotsa sebopego sa sone.	 Setlhabi mo lebeleng kgotsa mo tlhogong ya lebele: Lebele kgotsa tlhogo ya lebele e ka nna ya go tllhaba, ya nna botlhoko, kgotsa ya go <u>dira</u> gore o ikutlwe o sa gololesega	 Diphetogo mo sebopegong sa letlalo Letlalo la gago le ka nna le makgwakgwa, le le kitlaneng kgotsa le lebega jaaka letlalo la namune.
 Go nna le diphokwana mo letlalong Go ka nna le diphokwana tse dinnye kgotsa dikgwabana mo lebeleng.	 Diphetogo mo dikutung tsa lymph Go ka nna ga tlhagelela dikgapetla kgotsa go ruruga ka fa tlase ga letlalo.	 Go tswa ga seedi mo tlhogong ya lebele Seedi se ka tswa mo tlhogong ya lebele le fa motho a sa anyese.

Salome Machocho

Sethu Lushaba

Muziwakhe Mavuso

Siyabonga Motaung

Neri Chawane

 Tlhogo ya lebele e e gogilweng kwa teng kgotsa e e fetogileng Tlhogo ya lebele e ka fetoga ka tshoganyetso kgotsa ya gogelelwa kwa teng.	 Diphetogo mo mmaleng wa letlalo Letlalo la letswele le ka nna la nna le lehibidu, la fifala kgotsa la lebega jaaka le gobetse	 Go ruruga Karolo nngwe kgotsa letswele lotlhe le ka nna la ruruga kgotsa la utlwala le le legolwane.
--	---	---

Matshwao ano ga se ka metlha a reye gore motho o na le kankere ya matswele. Le fa go ntse jalo, diphetogo tse di sa tlwaelegang mo matsweleng a gago di tshwanetse go tlhatlhabiwa ke ngaka ya kalafi.

Matshwao a Kankere ya Matswele mo Banna

Le fa kankere ya matswele e sa tlwaelega thata mo banneng, diphetogo tse di sa tlwaelegang di tshwanetse go tlhatlhabiwa ke ngaka.

Banna ba ka nna le bontsi jwa diponagalo tse basadi ba nang le tsone, go akaretsa:

- Kgwele kgotsa go ruruga mo sehubeng kgotsa kwa lengopeng
- Diphetogo mo letlalong
- Mokelikeli o o tswang mo nnyo
- Nnyo e e tsenang mo teng
- Botlhoko kgotsa go utlwa botlhoko fa go tshwarwa
- Diphetogo mo bogolong kgotsa sebopegong sa sehuba
- Lekoa kgotsa ntho e e dikologileng nnyo

Mo banneng le mo basading, diphetogo mo matsweleng a gago ga di reye gore o na le kankere ya matswele, ka gonne go ka nna le mabaka a mangwe. Mme fa o lemoga phetogo nngwe e ntšha, e e sa tlwaelegang kgotsa e e nnelang ruri, ke kakanyo e e molemo go e tlathloba kwa ngakeng ya bongaka..

Tlhatlhobo le go Lemoga Kankere ka Bonako

Tsela e o tshwarwang ka yone e ka farologana gotlhelele le ya motho yo mongwe. Se motho a akanyang gore se tlwaelegile e ka tswa e le sone, kgotsa e ka nna sesupo sa go sekaseka dilo tse dingwe. Selo sa botlhokwa ke go dira se se siameng mo mmeleng wa gago le go bona thuso e e siameng fa o e tlhoka. O ka nna wa ipotsa gore, 'Ke tla simolola kae?' mme ke lefelo le o ka simololang go le kana kang.

Go itlhatlhoba ga Matswele

Go itlhatlhoba matswele ke tsela ya go tshwara dilo go sa le gale ka go tlhatlhoba matswele a gago ka go ama le go bona matshwao a pele a kankere ya matswele (Shockney, 2026). Maikaelelo ke go tlwaela tsela e matswele a gago a ikutlwang ka yone gore o kgone go lemoga sengwe le sengwe se se sa tlwaelegang.

Go botlhokwa go itse matswele a gago sentle gore tota le diphetogo tse dinnye mo tseleng e a ikutlwang ka yone gantsi di ka bolelelwa ngaka. Diphetogo tseno di ka akaretsa makgwakgwa kgotsa diphetogo tsa letlalo (Shockney, 2026). Gakologelwa gore ga se diphitlhelelo tsotlhe tse di sa tlwaelegang tse di masisi, mme ka metlha go botoka go babalesega go na le go ikwatlhaya.

O e dira jang?

CAN/SA e neile dikgato tsa gore go dirwe jang go itlhatlhoba ga matswele.

Se se latelang ke video ya YouTube e e bontshang gore o ka dira jang:

https://youtu.be/7ef2RF_9U4c?si=nRNXuZMcFGnccEXB

Dikgato tse di mo videong ke tse di latelang:

1. Tlhatlhobo fa pele ga seipone

- Fa o eme fa pele ga seipone, sekaseka diphetogo dipe fela tse di ka nnang teng mo mmeleng le mo maikutlong a matswele a gago. Seno se ka akaretsa di-dimples, diphetogo tsa bogolo kgotsa go tswa ga nipple e e sa tlwaelegang.
- Dira tlhatlhobo ka ditsela di le nne: matsogo mo matlhakoreng a gago, matsogo kwa godimo, matsogo a gatelela thata mo letheke la gago, le go khubama kwa pele, go ya ka CAN/SA (2019).

2. Tlhatlhobo o Robile

- Robala ka fa tlase ga legetla la gago la moja mme letsogo la moja ka fa tlase ga tlhogo ya gago.

Salome Machochi

Sethu Lushaba

Muziwakhe Mavuso

Siyabonga Motaung

Neri Chawane

- Dirisa menwana e mene ya seatla sa molema, o dire metsamao e mennye ya sediko. Tswelela ka mokgwa wa go ya kwa godimo le kwa tlase mo karolong yotlhe ya letswele, ka fa tlase ga mabogo le go fitlha kwa lerapong la legetla. Gatelela ka thata. (CAN/SA, 2019)
- Dira se se tshwanang o dirisa seatla sa moja mo letseleng la molema.

3. Tlhatlhobo fa o tlhatsoa

- Fa o tlhapa kgotsa o tlhapa, tsholetsa letsogo la gago la moja mme o dirise seatla sa gago sa molema se se nang le sesepa

Latela dikgato tse di tthalositsweng mo tlhatlhobong le ka tsela e e farologaneng.

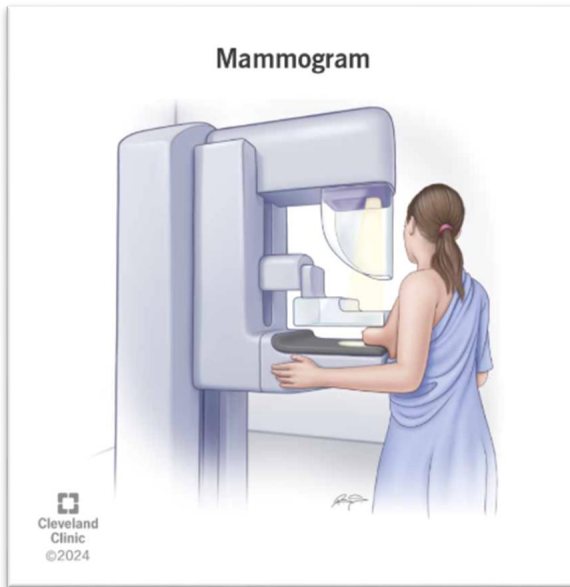

Mekgwa ya Tlhatlhobo ya Baitseanape

Morago ga go itlhatlhoba, kgato e e latelang ke go itlhatlhoba. Fa o lemoga sengwe ka nako ya go itlhatlhoba, ya kwa setheong se se gaufi le wena sa botsogo go bona tlhatlhobo ka kelotlhoko. Fa o goroga, baitseanape ba tsa botsogo ba ka dirisa mekgwa e e farologaneng ya go tlhatlhoba matswele a gago. Mekgwa eno e akaretsa:

1. Mammography kgotsa Mammogram

- Mammogram ke tlhatlhobo ya X-ray ya ditogwa tsa matswele, e e dirwang ka selekanyo se se kwa tlase sa radiation (Malhotra, n/a).
- 2D mammogram ke ditshwantsho tsa X-ray go tswa kwa godimo le mo letlhakoreng la sehuba.
- 3D mammogram e tsaya ditshwantsho go tswa mo matlhakoreng a mantsi go dikologa letswele (Malhotra, n/a).

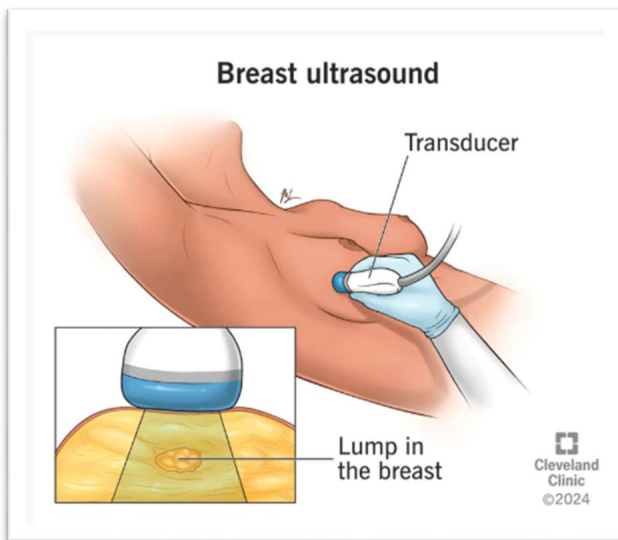

Setshwantsho se se bontshang molwetse a tlhatlhabiwa matswele a gagwe mo motšhineng wa mammogram. Motswedi: Cleveland Clinic (2024).

2. Ultrasound

- Ultrasound ke fa motegeniki a tsamaisa sediriswa se se tshwarwang ka seatla (se se bidiwang transducer) mo godimo ga letswele la gago le lefelo le le dikologileng (Cleveland Clinic, 2024).
- E thusa go bontsha gore a setlhabi mo letsweleng ke setlhabi se se tlwaelegileng kgotsa ke kgolo e e tiileng e e tlhokang go tlathhobiwa go ya pele.

Setshwantsho se se bontshang molwetse a robetse mo mokwatleng fa motšhine wa ultrasound o dirisiwa go tlathhoba matswele. Motswedi: Cleveland Clinic, 2024

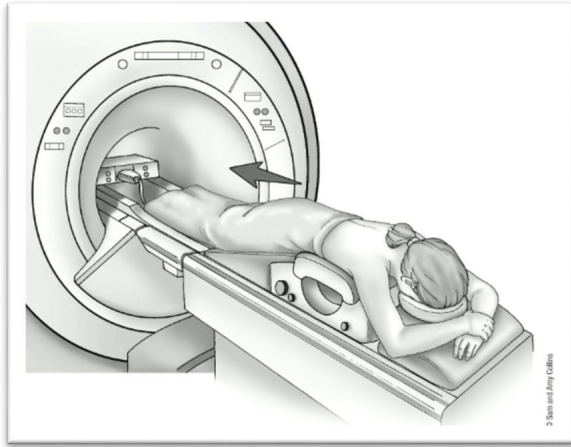

3. Magnetic Resonance Imaging, kgotsa MRI

Salome Machocho
 Sethu Lushaba
 Muziwakhe Mavuso
 Siyabonga Motaung
 Neri Chawane

- MRI ke tlhatlhobo ya matswele e e dirisang makhubu a radio le makenete a a maatla go tsaya ditshwantsho tse di tseneletseng tsa ditogwa tsa matswele (American Cancer Society, 2026).

Setshwantsho sa mosadi a robetse ka sefatlhego mo motšhineng wa MRI. Motswedi: American Cancer Society (2026).

Thanodi ya Mafoko

Kankere bolwetse jo disele tse di sa tlwaelegang di golang le go ikatisa ka tsela e e sa laolesegeng.

Chemotherapy kalafi ya diokobatsi e e dirisang dikhemikale tse di nonofileng go bolaya disele tse di

golang ka bonako mo mmeleng, segolobogolo go alafa kankere.

Tlhatlhoba go lemoga bolwetse kgotsa boemo jwa botsogo ka tlhatlhoba ya kalafi le diteko.

Boammaaruri tshedimosetso e e netefaditsweng e le boammaaruri mme e tshegediwa ke bosupi jo bo ikanyegang.

Maemo a di-receptor tsa dihoromone maemo a a bolelelang dingaka gore a disele tsa kankere di na le

diporoteine tse di rileng (di-receptor) tse di kgomarelang mo dihoromoneng tse di jaaka progesterone go

tsweletsa kgolo ya tsone.

Kalafi ya dihoromone kalafi ya kalafi e e oketsang, e e thibelang kgotsa e e ntshang dihoromone mo

mmeleng go laola diponagalo kgotsa go alafa malwetse a a rileng jaaka kankere.

Immunotherapy mofuta wa kalafi o o dirisang tsamaiso ya mmele ya tshireletso go lwantsha malwetse a a

jaaka kankere.

Karolo ya lymph karolo e nnye ya mmele e e thusang go lwantsha ditshwaetso le malwetse. Dikarolo tsa

lymph di fitlhelwa kwa mafelong a a jaaka magwafa, molala le gaufi le lerapo la legetla.

Mammogram setshwantsho sa X-ray sa letsele se se tsewang ka motšhini wa mammogram o o

gatelelang dithishu tsa letsele gore go lemogiwe diphetogo tse di sa tlwaelegang.

Metastasis tiragatso e kankere e anamang ka yone go tswa kwa e simologileng teng go ya kwa dikarolong

tse dingwe tsa mmele.

MRI tlhatlhoba ya letsele e e dirisang maqhubu a radio le dimanete tse di nonofileng go tsaya

ditshwantsho tsa boleng jo bo kwa godimo tsa dithishu tsa letsele.

Ditumelo tse di seng boammaaruri

ditumelo kgotsa dikgopolo tse di tlwaelegileng tse di sa

tshegediweng ke bosupi jo bo ikanyegang.

Nnyo karolo e nnye e e emeng mo bogareng jwa letsele kwa mashi a letswele a ka tswang teng.

Kalafi ya radiation kalafi ya kankere e e dirisang mahlaseli kgotsa dikarolwana tse di nang le maatla a

magolo go senya disele tsa kankere le go fokotsa dithulaganyo.

Lebaka la kotsi sengwe se se ka oketsang sebaka sa gore motho a nne le bolwetse.

Tlhatlhoba diteko tsa kalafi tse di dirisiwang go tlhatlhoba bolwetse, ka dinako dingwe pele ga diponagalo

di tlhagelela.

Matshwao diphetogo tsa mmele tse di ka lemogwang kgotsa tsa bonwa, jaaka kgwelanyana kgotsa go ruruga.

Karo mokgwa wa kalafi o dingaka di segang, di baakanyang kgotsa di ntshang dithishu tsa mmele go alafa

malwetse, dikgobalo kgotsa mathata a mangwe a botsogo.

Diponagalo diphetogo kgotsa mathata a motho a itemogelang one, jaaka botlhoko kgotsa letsapa.

Kalafi e e lebisitsweng kalafi e e rileng ya kankere e e dirisang melemo go bona le go tlhasela diphetogo

tse di rileng, dijini kgotsa diporoteine mo teng kgotsa mo godimo ga disele tsa kankere.

Transducer sediriswa se se tshwarwang ka seatla se se dirang maqhubu a modumo a a boelang morago

fa a thula dithishu tsa mmele go dira setshwantsho se se ikaegileng ka dibopego tse di farologaneng mo

dithishung tsa letsele.

Setlhagala kgobokano ya disele tse di sa tlwaelegang e e bopiwang fa disele di gola le go ikatisa go feta

ka fa di tshwanetseng ka teng.

Ultrasound mokgwa wa go tsaya ditshwantsho o sediriswa se se tshwarwang ka seatla se se bidiwang

transducer se dirisang thekenoloji ya modumo go dira ditshwantsho.
